

## WATER TANK LINING PROTECTION

Denso FB30 Tape used to protect a water storage tank liner from construction bolts.

### PROJECT DATA

Location	Sarsfield, VIC
Contractor	Tank Industries Victoria
Client	East Gippsland Water
Products	Denso FB30 Tape
Date	February 2020
Ref No	I003

### PROJECT DETAILS

Tank Industries were engaged by East Gippsland Water to supply and construct a 6 megalitre water storage tank at Sarsfield.

The client requested that the liner in the tank be fully protected from the bolts used to construct the tank. A cover was designed covering the bolt groups with self-adhesive Ableflex which was then taped over using Denso FB30 Tape.
