

PROTAL™ 7200 REPAIR CARTRIDGE (400 mL) Fast Cure Epoxy Repair Coating

Description

Protal™ 7200 Repair Cartridges are specially formulated for patching and repairing damaged FBE and other liquid coated pipelines. The repair cartridges are packaged in 2-component tubes that are applied with a dispensing gun (sold separately).

Uses

Repair coating for damaged FBE and other liquid coated pipelines. Also used as coating of cadweld areas.

Features

- Excellent adhesion (compliments FBE coated pipe)
- Fast cure
- High build (in one coat)
- High abrasion resistance for drilling applications
- Can be used as an abrasion resistant coating (ARO)
- Does not shield cathodic protection

Application

Surface shall be roughened approximately 1" (25 mm) around all repair areas using a Carborundum cloth or 60 to 80 grit sandpaper and then remove the remaining dust with a clean, dry cloth, brush or clean compressed air. Material can be applied by injecting material into a small container and mixing until a uniform color is achieved or utilizing the Protal™ Static Mixing Tip. Material can then be brush applied to specified thickness (minimum 508 microns). Cure times are dependent on temperature and will be extended at cooler temperatures.

*Please refer to "Protal™ 7200 Accelerated Cure Specifications for Repairs" to achieve a 5 minute cure time.

Adhesion to FBE (ASTM D-4541-02)	2,579 psi (17.8 MPa)
Service Temperature	-40°F to 203°F (-40°C to 95°C)
Application Temperature	-30°F to 212°F (-34°C to 100°C)
Note: If temperature falls below 50°F (10°C), surface must be preheated and maintained throughout the cure process.	

STORAGE: Minimum 24 months when stored in original containers @ 40°F (4°C) to 105°F (41°C). On job site where temperatures are below 50°F (10°C) product should be kept warm to mix properly (18°C to 29°C optimal).

CLEANING: Clean equipment with MEK or equivalent solvent cleaner.

HEALTH AND SAFETY: Apply under well ventilated conditions. Wear suitable protective clothing and glasses. See safety data sheets for further information.

PACKAGING: 400 mL dual cartridges.

Dispensing guns and static mixing tips sold separately.
